

**Candidate for Bachelor of Computer Science (Data Science), Pure Mathematics Minor, University of Waterloo, September 2017 - present**

-  (416)-529-2885
-  dutingda@outlook.com
-  <https://github.com/dutingda>
-  [www.linkedin.com/in/tingda-d-276417111](http://www.linkedin.com/in/tingda-d-276417111)

**• Programming Languages**

JAVA  
C  
C++  
BASH  
LISP/SCHEME  
ASSEMBLY (MIPS)  
TEX (LATEX)  
SQL  
R  
PYTHON  
HTML/CSS/JAVASCRIPT  
MATLAB

**• Tools**

ECLIPSE, IntelliJ  
GIT  
Jenkins  
Selenium  
Ant  
JIRA, Confluence  
TestNG  
MongoDB  
Fathom

**• Language**

MANDARIN (PROFICIENT)  
JAPANESE(BASIC FAMILIARITY)

**• Interests**

Solving difficult math problems  
Design little programs  
Swimming, Saxophone

**Tingda Du**

**Summary of Qualification:**

- **Proficient in JAVA, C, C++, Python, MIPS assembly, etc. with thorough understanding of algorithms and data structures.**
- **Excellent leadership, teaching, curriculum development, and oral and writing capabilities developed through tutorial experience**
- **Possessing a demonstrated ability to juggle multiple high priority tasks under time pressure**
- **Enthusiastic team player and learner, eager to meet challenges**
- **Capable of quick adaptation and acquiring new skills through self-study**
- **Proven ability to quickly and accurately learn various forms of technology and software.**

**• Working and Research Experiences**

2019-05 - 2019-08	<b>Backend Developer (Cloud)</b> IBM Corporation <ul style="list-style-type: none"><li>• <i>Contributing to Eclipse OpenJ9 open source project (IBM Runtime Technology)</i></li><li>• <i>Contributing to CAS-deepsmith research and development project (Java-version compiler fuzzing using deep learning)</i>, collaborating with Prof. Hugh Leather and his Ph.D. Student Chris Cummins (University of Edinburgh) (<a href="http://homepages.inf.ed.ac.uk/hleather/publications/2017-benchsynth-cgo.pdf">http://homepages.inf.ed.ac.uk/hleather/publications/2017-benchsynth-cgo.pdf</a>) (<a href="http://homepages.inf.ed.ac.uk/hleather/publications/2018-deepfuzzing_issta.pdf">http://homepages.inf.ed.ac.uk/hleather/publications/2018-deepfuzzing_issta.pdf</a>)</li></ul>
2018-09 - 2018-12	<b>Software Quality Assurance Engineer</b> Veeva System Inc. <ul style="list-style-type: none"><li>• <i>Being as a member in Veeva Network automation team doing automation software tests</i></li><li>• <i>Working on Java, Bash, Json scripts on a daily basis</i></li><li>• <i>Using Selenium, TestRail, Jenkins, TestNG, MobaXterm, MySQL Workbench, Jira as working tools</i></li></ul>

**• Education and Projects**

2017-09 - present	<b>Candidate for Bachelor of Computer Science (Data Science), Minor in Pure Mathematics, Co-operative Program, University of Waterloo, Waterloo, Ontario</b> <b>Projects:</b> <ul style="list-style-type: none"><li>• <b>Compiler of WLP4 (subset language of C++)</b><ul style="list-style-type: none"><li>• <i>Using simplified maximal munch (DFA) as lexical scanner and using LR1 parsing, generating MIPS, implementing it with C++</i></li></ul></li><li>• <b>Quadris (C++)</b><ul style="list-style-type: none"><li>• <i>Using design patterns and OOP to develop game of quadris (special form of tetris)</i></li></ul></li><li>• <b>Scheme programs</b><ul style="list-style-type: none"><li>• <i>Accomplished school projects in Scheme with Dr.Racket</i></li><li>• <i>Learned to design functional programs effectively</i></li></ul></li><li>• <b>Courses:</b><ul style="list-style-type: none"><li>• <i>Operating System, Algorithms, Database, Assembly Programming and Compiler Design, Computer Organization and Design, Computational Logic, Data structures, Object Orienting Programming, Functional programming, Advanced Analysis, Algebra and Linear Algebra.</i></li></ul></li></ul>
----------------------	--

**• Awards and Achievements**

2017-09	President Scholarship of Distinction, Math Entrance Scholarship Awarded for outstanding performance in mathematics contests
2017-05	2017 CEMC Euclid Contest 90/100, top 25 (Group II) out of 13000+ contestants in Canada, School Champion ( <a href="http://www.cemc.uwaterloo.ca/contests/past_contests/2017/2017EuclidResults.pdf">http://www.cemc.uwaterloo.ca/contests/past_contests/2017/2017EuclidResults.pdf</a> )

**• Activities**

2019-07	<b>IBM North American Intern Hackthon</b> <ul style="list-style-type: none"><li>• Implemented IBM social media analytics web application using IBM Watson tone analyzer.</li><li>• Cognitive AI team</li></ul>
2018-04 - 2018-06	<b>Kaggle Competition (Avito Demand Prediction Challenge)</b> <ul style="list-style-type: none"><li>• Got familiarity with modelling, features engineering, and algorithm design for data</li></ul>
2017-09 - present	<b>Data science club</b> <ul style="list-style-type: none"><li>• Actively accessed data science resources provided by club</li><li>• Attended various activities and lectures held by club</li></ul>
